

BRAMSHOTT & LIPHOOK PARISH PLAN (BLPP)

STEERING GROUP

The members of the Steering Group, the BLPP Governing Body, are:

| Ser | Committee Member: | Portfolio: |
|------------|---|--|
| 1. | <p>Robin Young</p> <p>Robin is 72, married with three children. He and Dee have only lived in Liphook for the past four years but, due to in-laws, we have been acquainted with the village and surrounding areas for a very long time and for some years, we lived in West Harting. Robin is a retired Police Officer with the Surrey Force. After retirement, he set up a Company teaching specialised skid and defensive driving which led to them moving to Guernsey for a number of years on a contract to teach over there. Robin has been involved with Age Concern for a considerable time and gets pleasure from assisting those that cannot help themselves. Three years ago he was elected Chairman of Age Concern, Liphook. Robin takes great pride in getting involved, making things happen, keeping bureaucracy to a minimum, keeping healthy communication open with all parties and subsequently changing things for the good and better of everyone.</p> | <p>Chairman</p> <p>Elderly, Disabled & Medical</p> |
| 2. | <p>Trevor Maroney</p> <p>Trevor is married with one son. He and Sandy have lived in Liphook for the past 14 years. As a retired school bursar and charity treasurer during this period he has spent a lot of time commuting. Therefore having benefited from living in such a delightful environment he would now like to play a more active role in community life. As such, he brings to the Steering Group knowledge and experience gained as a qualified management accountant, chartered secretary and civil engineer, with some years' service in the army. Having shared in many close knit and disciplined communities Trevor is confident that he can bring objectivity when reviewing, along with others, the Parish's current and future demands on the Emergency Services. He is currently leading a survey into the future wishes of the youth within and around the Parish.</p> | <p>Secretary</p> <p>Emergency Services.</p> <p>Crime, Law & Order.</p> <p>Youth survey.</p> <p>Education & Training.</p> <p>Website & Media.</p> |
| 3. | <p>John Tough</p> <p>John is a Transport Consultant with degrees in Civil Engineering, Transport Planning and Engineering and in Traffic Engineering. Since University he has worked in the transport field for 34 years and much of his work has been concerned with traffic accidents and road safety.</p> <p>He has been a member of the Parish Council for almost 14 years having been elected in May 1999. For most the time John has been Chairman of the Highways Byways and Transport Committee and the Parish Transport Representative, which position he still hold. He represented the Parish Council at the Hindhead Tunnel Public Inquiry and their objection led to the construction of the Canadian Memorial Underpass on Bramshott Common and the rejection of the proposed Outer Western Route. John has been active in establishing and monitoring satellite parking and safe walking routes in order to improve access to, and reduce congestion around, the Junior and Infant Schools.</p> | <p>Treasurer</p> <p>Infrastructure:</p> <p>Utilities, Traffic, Parking Congestion, Highways & Byways.</p> |
| 4. | <p>Phil Jordan</p> <p>Following early retirement from ICI/AstraZeneca/Syngenta, Jane and Phil sought opportunities to add value to the community his family has enjoyed and benefited from for over 30 years. Although heavily involved in setting up Bohunt School Education Trust and a member of LiDBA, work and travel prevented closer community involvement. On retirement and dipping his toe in the "volunteer waters" Phil discovered a wealth of opportunities for contributing and gaining from the resulting activity be it Liphook in Bloom, LiDBA or the Parish Council. He firmly believes that the community needs a well-researched and shared vision for the future. Phil is hopeful that his knowledge of the community, a wide network of contacts and skills acquired working for a Class A company will enable him to contribute to a clear vision of what the community aspires to as documented in a Parish Plan.</p> | <p>Environment:</p> <p>Amenities, Farming & Countryside.</p> <p>Communications</p> |

| | | |
|-----|---|--|
| 5. | <p>Simon Cooper</p> <p>Known for delivering bangers, burgers and the occasional mulled wine at local events, after several years in Paris, the Coopers settled here 15 years ago, having 3 adult children, all educated in Liphook schools. Simon had a varied career, from military flying, hotel management and 13 years in Marketing, PR and Business Management for BAe Systems. Now a member of our new choir, “Love to Sing”, he is an independent consultant, specialising in international business development and operating mainly in Kazakhstan.</p> | PR & Facilitator. |
| 6. | <p>Lee Stewart</p> <p>Lee has lived in Liphook for over 12 years now and has run a business from the Beaver Industrial Estate for almost 22 years. He is married with two children who both attend Bohunt School. He is currently the Managing Director of Print IT, a design and print company, and was one of the original five panel members of the Liphook Business Initiative, which was set up to increase awareness of Liphook businesses.</p> | Business: Retail & Employed/ Employment. |
| 7. | <p>Sarah Frankland</p> <p>Sarah moved to Conford two years ago with her Husband Tim. She has lived as part of various rural and city communities in a range of countries during her adult life. These life experiences have given her an awareness of the privilege she experiences and the profound injustices lurking. They have also given her the opportunity to experience the positive impact that communities can have over their locality and their lifestyle by pulling together.</p> <p>She is excited about the Parish Plan, which she sees as a wonderful opportunity to identify and address socio-economic and environmental issues experienced by every part of our community and a great way to build a stronger sense of community spirit and identity.</p> <p>On a practical front, Sarah has organisational and management skills from her professional life as the manager of a team of IT security consultants within a large professional services organisation, and from her teaching days. She participates in community life by volunteering at the youth club, sitting on the youth club committee and by supporting local events and projects. She is enthusiastic, practical and level headed.</p> | Hamlets. |
| 8. | <p>Jacqui Poole</p> <p>Jacqui works in the NHS as a ward clerk at Milford hospital and has lived in Liphook since May 2007, moving here from Godalming to be near friends. Almost immediately on arrival she joined Liphook in Bloom and was struck by the strong sense of community existing in Liphook. Jacqui hopes that developing the parish plan will consolidate this and look forward to involving as many people as possible in an exciting project.</p> | Sports & Recreation. Leisure Activities & Interests. |
| 9. | <p>Jeanette Kirby</p> <p>Jeanette moved to Bramshott in 2006 to be close to her family (son, daughter and small grandchildren) and also friends. She has a degree in Environmental Science and qualifications in countryside management and is particularly interested in heath land, having worked as a warden for Surrey Wildlife Trust and on a large country estate. Jeanette is now working with children in the early years’ age group, runs a local child-minder group and contributes to the Bramshott Bugle newsletter. Her interest in planning began when living in Farnborough and watching the change from several small settlements to one huge urban sprawl with horror. Jeanette then moved to Herefordshire, a very rural and agricultural county where she drew up plans and managed the renovation of a cottage. She feels strongly that changes to the planning system may be potentially damaging too many communities where developers are unsympathetic to local landscapes but is equally hopeful that community involvement can lead to benefits for residents while retaining the character of the area.</p> | Government Liaison: Planning, Housing & Development. Junior Education & Under 5s. |
| 10. | <p>Carole Holmes</p> | Elderly, Disabled & Medical. |
| 11. | <p>Tony Rudgard</p> | Sports Advisor |
